Bacon, tea bags, grapefruit juice and working night shifts are also group 2A carcinogens.

This classification isn’t based on a risk assessment but rather an evaluation of the potential of an agent to be carcinogenic.

Any chemical can be toxic at a high enough dose, including glyphosate. Remember, “The dose makes the poison”.

Sense About Science is a UK charity that puts science and evidence in the hands of the public.
Registered Charity No. 1146170 Company No. 6771027
